National Smile Month

May 15 to June 15th

National Smile Month is the UK's largest and longest-running campaign to promote good oral health.

Together, with thousands of individuals and organisations, National Smile Month highlights three key messages, all of which go a long way in helping to maintain a healthy mouth. These are:

- Brush your teeth for two minutes last thing at night and on at least one other occasion with fluoride toothpaste.
- Cut down on how often you have sugary foods and drinks.
- Visit your dentist regularly, as often as recommended

The aim of National Smile Month is to ultimately improve the UK's oral health.

The team at Clifton Dental Studio also hope to raise awareness of important dental health issues, and make a positive difference to everyone's oral health. We aim to educate, motivate and communicate positive oral health messages to improve the quality of smiles for all of our patients

If you have any questions or queries about the health of your mouth, please contact us and we will be happy to arrange a complimentary appointment with our oral health educator to discuss your concerns.

Thank you

This month we would like to thank the following patients for referring their friends and family to us: Linda Edkins, Sarah Breen, Sarah Long, Kirsty Pottier, Darren and Sarah Lloyd, Freddie Sexton
