

“ Keeping your smile healthy for life ”

Ahmed's story

“The number one reason why I chose Clifton Dental Studio in preference to all the other available choices is because of the amount of experience and training that Dr Neil Gerrard has accumulated over the years. From my research I found that he is one out of 13 dentists in the South West who has achieved accreditation status with the British Academy of Cosmetic Dentistry, so I know I was seeing the best. I was looking to undertake treatment for bone grafting, implant, braces, bonding and whitening. Before my treatment I was very uncomfortable with my smile and I would try my best to avoid any social situations that would make me smile. The treatment experience was great! It took me 18 months to achieve my ultimate smile and Dr Neil Gerrard was very helpful in making the experience as pleasant as possible by providing me with temporary solutions between appointments. I am very amazed and pleased with the final result of the treatment. I feel very confident and I am glad that I have made the decision to sort out this area of my life which had a serious effect on me. I already referred a friend to the Clifton Dental Studio who was very surprised and impressed by my smile and I am going to be recommending this dental practice to my family members and friends in the future.”
